PROJECT REGISTER
Form FSA-Gen 196

Explanation

This register lists all active and inactive projects. The information contained therein is as of the date shown on each page.

Projects in each state are in numerical order. First are listed those which are (1) exclusive investments of the Federal Government or (2) joint investments of the Federal Government and a State Rural Rehabilitation Corporation. These projects carry the following symbols: RR, RF, RI, SH, RH, SR, and FS. (Unless otherwise indicated in the status column, the RR, RI, and SR projects were initiated by the Resettlement Administration, the RF projects by the State Corporations, and the SH and RH projects by the Subsistence Homesteads Division of the Department of the Interior.) The FS projects were initiated and developed by the Forest Service with the cooperation of the Resettlement Administration and the FSA, and with funds of the latter two agencies.

For most states there is a second list of projects carrying the "S" symbol, which designates "State Corporation," and numbers beginning with "51." These projects are exclusive investments of the State Corporations. In previous issues of the Project Register joint investment projects were also included in the "51" series, but such projects now have only one number. However, for purposes of identification, the obsolete "51" series number of each joint investment project is shown in parenthesis in the column headed "FSA Project No." Several projects which are exclusive Corporation investments also formerly carried two numbers, but now only the "51" series number is retained for them. However, the obsolete numbers of these projects are also shown in parenthesis under the correct numbers for purposes of identification.

The status column shows (1) whether a project is active, inactive, or discontinued; (2) source of funds used for land purchase and development on each project; and (3) descriptive data in the case of certain Corporation projects which cannot be classified as ordinary resettlement housing type projects. If a project is designated in the status column as an "active FSA project," it may be assumed that both land purchase and development are with FSA Project Funds unless a statement to the contrary is made, as will be the case where a project has been developed in whole or in part by AO 226 Loans. If a project is designated as a "Corporation Project," it may be assumed that land purchase and development are exclusively with Corporation Funds unless a statement to the contrary is made. However, the status column will elaborate sufficiently to distinguish between Corporation Pre-Trust and Trust Funds. In the case of joint investment projects, the source of funds for land purchase and development will be briefly narrated. For projects designated as "Active SH-FSA" projects, land purchase and/or development was in part with funds allocated to the Subsistence Homesteads Division of the Department of the Interior, the initiating agency. Explanation is made accordingly.

In order to further distinguish active from inactive projects, the titles of active projects are shown in capital letters.

Additional Copies of Form FSA-Gen 196

The Project Register is issued by the Budget Section of FC Division. Requests for copies should be addressed to Mr. C. B. Baldwin, Assistant Administrator, Attention: Budget Section, or telephoned to Extension 4647, Agriculture Exchange.

Revisions and/or Supplements

The present issue of the Project Register is based on the latest and most reliable data available in Washington. Revisions and supplements, containing revised, corrected, or additional data, will be issued from time to time and forwarded to persons on the mailing list.

NORTH DAKOTA, Region 7

FSA PROJECT NUMBER	OFFICIAL PROJECT NUMBER	LOCATION HEADQUARTERS	COUNTY	TITLE	STATUS
S-ND 51		Burlington	Ward	BURLINGTON PROJECT	An active 35-unit project completed by the State Corporation. On April 7, 1939 the Corporation transferred control of the project to the FSA. It had been excepted from the original agreement transferring the Corporation's other assets to the FSA.
S-ND 53		Lincoln, Neb.	Cass, Burleigh, McLean, Barnes	NORTH DAKOTA SCATTERED FARMS	An active project comprising 372.98 acres purchased by the State Corporation for resale to RR clients; one tract (19 acres) sold for cash; two tracts (31.3 acres) sold on long-term contracts; 322.68 acres idle.
S-ND 54		Williston	McKenzie	LEWIS AND CLARK IRRIGATION PROJECT	State Corporation owns 2,412 acres of land which is to be developed as an irrigation project; proposal being studied to place settlers on the land. This project was excepted from the agreement transferring the Corporation's assets to the FSA. Therefore, the FSA is interested in the project only in an advisory capacity.
